

AISP Network Membership

Governance

A formal structure (governance) to review and approve specific projects that utilize the integrated data system at your site.

Qualifications for AISP Network Membership

Establish ongoing data sharing and integration from at least three agencies or program providers (e.g., Child Welfare, School District, etc.) that include formal documentation of the relationships (e.g., signed Memoranda of Understanding (MOU)).

Data Sharing

Peer to peer professional exchange

Sharing of solutions to common challenges

Access to network professionals

Benefits of Being an AISP Network Member

Lasting infrastructure that exists beyond a single project. This should include analysts or analytic capabilities through partnerships that can support multi-site research projects.

Infrastructure

Opportunities to present and discuss important projects

Cultivating relationships with federal agencies, foundations, and other potential funders

Learning of innovations in the field
